INDUSTRY RELEVANT PROJECTS

More projects, write-ups and code available on my portfolio at mikeyguinness.com.

- **NHS South Yorkshire GP Access & Deprivation Analysis:** SQL and Python pipeline combining four NHS/government datasets across 169 practices. Used Spearman's correlation to identify a significant link between deprivation and missed appointments; built an interactive Power BI dashboard to present findings.
- **Exoplanet Detection Data Analysis:** Cleaned and analysed a real-world astronomical dataset using pandas, building custom aggregated dataframes to rank detection facilities and independently investigate anomalous detection patterns.
- **MNIST Digit Classification:** Designed and benchmarked six machine learning and deep learning models (including CNNs) for digit classification, evaluating accuracy, run-time and failure cases to identify the best-performing approach.
